Designated Industrial Property Assessment Inspections

Please be advised that a representative(s) from the Provincial Assessor's Office will be inspecting designated industrial (DI) property in your municipality between the following dates:

• **May 31 – June 11**

The representative(s) will be driving a white Ford truck with an Alberta logo on each side. As a result of the current COVID-19 restrictions, Provincial Assessor's Office (PAO) staff have been required to make slight changes to the way field inspections have been done in the past. Many companies have policies in place that do not allow property inspections during the pandemic. This means that facilities that are staffed with operators or other plant personnel may not be able to be physically inspected under the current restrictions. As a result, increased emphasis will be placed on company reporting, and additional follow-up will be done with these companies via phone calls or exchange of email information. PAO staff will continue field inspections for smaller sites that do not require contact with company operators or other plant personnel. These inspections have not changed at all during the pandemic.

Please keep in mind that our seasonal crews will be out working on our roadways and to use extreme caution while travelling on these roads while they are being maintained in any way. We thank you in advance for your cooperation during this season.
